EXPORT PLAN DESIGN & DEVELOPMENT

WE DO ALL THE WORK. YOU GO INTERNATIONAL.

Export Plan Development Services for Your Next International Market.

DESCRIPTION

Channelspark will engage as a consultant and design & develop your company's Export Plan, working onsite or remotely with senior executives, using interviews & product analysis to produce a Plan built around your company's sector & product or service.

BENEFITS

Similar to a business plan, the Export Plan will provide a comprehensive, step-by-step guide to market entry & distribution strategy for a specific market, reducing risk & costs from exporting mistakes. Leveraging the convenience of a custom consulting project, most Plans can be done in weeks, allowing for fast follow up.

DELIVERABLES

The Export Plan includes an executive summary, critical market data & demographics, a competitive analysis, sector data & prospect distributors for a single market. The plan will also include a review of current marketing content & international marketing best practices.
